

Thank you for being a tester for openDoor! We appreciate your help in this process.

This is an early prototype of openDoor (the very first, in fact). While we don't expect this device to unexpectedly open or close your garage door, various issues and bugs are possible.

And that's where you come in...

Please give us your feedback. If you find a problem, let us know. If you have an idea that would make this better, let us know.

Below is our contact information. Feel free to use whatever method you prefer to voice your opinion.

Thanks!
